

CoZero (Pty) Ltd - SANAS-accredited scope

Accredited status CoZero (Pty) Ltd is accredited by the South African National Accreditation System (SANAS) as a greenhouse-gas validation and verification body in accordance with ISO/IEC 17029:2019. Our accreditation applies only to the services and industrial sectors listed below and in our current SANAS-published scope.

Independent GHG validation and verification

CoZero provides independent validation and verification of greenhouse-gas (GHG) information. Our accredited activities are performed in accordance with the requirements applicable to GHG validation and verification bodies and the standards identified in our SANAS scope.

Standards covered by our accreditation

- ISO/IEC 17029:2019 - General principles and requirements for validation and verification bodies
- ISO 14065:2020 - General principles and requirements for bodies validating and verifying environmental information
- ISO 14064-3:2019 - Verification and validation of greenhouse-gas statements
- ISO 14064-1:2018 - Organisation-level quantification and reporting of greenhouse-gas emissions and removals
- ISO 14064-2:2019 - Project-level quantification, monitoring and reporting of greenhouse-gas emission reductions or removal enhancements

Accredited services and industrial sectors

Verification and Validation Scope

CoZero's accredited organisation-level GHG verification and Validation scope covers:

- Mining and mineral production
- Oil and gas exploration, extraction, production and refining
- Pipeline distribution, including petrochemicals
- Chemical industry
- Fugitive emissions from the production and consumption of halocarbons and sulphur hexafluoride
- Metal production
- General sector, including building services and facilities management, education, hospitals, and other activities classified within the approved General sector and confirmed during engagement review

Important scope limitation Accreditation does not automatically apply to every service offered by CoZero. A project is represented as SANAS-accredited only when the specific activity, industrial sector and applicable requirements fall within CoZero's current published scope and the engagement has been accepted and performed as accredited work.
